

## ART OF LIFISM

Art of Lifism club seeks to interpret the beauty of life through drawing and painting things in the natural environment. "Lifism" is the slogan chosen by the club to propagate the philosophy of the dignity of life. We do not draw or paint by imagination but by seeing. We believe that life is not an abstract idea or concept but a concrete phenomenon that exists in reality. The dignity of life cannot be told only by words but also by its own beauty. At the same time, we also believe in the potential of life to overcome obstacles in reality. Life is both sacred and profound, and our art aims at getting rid of its border between the two aspects. If you are interested in taking the role of interpreter of life, why don't you join us!

### 2010 Spring Semester Goal(s)

1. To acquire drawing skills to express the depth (space) and movement (time) through drawing as we see things in order to interpret the beauty of life, nature, and reality.
2. To study philosophies of art, the universe, and life through the reading of philosophy and literature.
3. To exhibit drawing and painting works at the International Festival on May 1<sup>st</sup>, 2010.
