HIP HOP CONGRESS

Hip Hop congress is a club that supports positive social change through the various different forms of hip hop culture. Some of our activities include:

1. Presenting a new concert called “The Show”, comprised of student performances of music, dance, and poetry as well as performances from off campus artists.
2. Holding an event in the spring called “Elements of Change”, which includes a panel discussion of issues on Hip Hop, youth, and education as well as a concert.
3. Sharing rap music, poetry and spoken word.
4. Holding dance parties and other on-campus concerts.

2010 Spring Semester Goal(s)

1. To continue to develop The Show, thereby providing SUA students with the opportunity to develop their capacities for creative expression both on and off campus.
2. To hold a successful Elements of Change conference event, in the hopes of sparking discussion among the community about the relationship between hip hop, education, social justice, and the values of Soka.
