KENDO CLUB

We intend to provide a path in life which is followed through the training of Kendo, Japanese fencing. The goal of the SUA Kendo Club is to enrich students’ lives through teaching Kendo, a martial art that nurtures spiritual discipline and personal growth. Heavy emphasis is placed on teaching the fundamentals (instead of teaching combat technique) since many of our members will be learning at the beginning level each year. The main goal of the club is to foster a spirit within the members to joyously endure and overcome hardships in many aspects of their lives through rigorous kendo training. The SUA Kendo club shall be a positive representative of the university through off-campus kendo-related activities. Lastly, the SUA Kendo Club aspires to have members continue kendo even after graduating from the University.

2010 Spring Semester Goal(s)

1. To build cohesiveness and team trust.
2. To prepare for and attend competitions and/or tournaments.
3. To volunteer for community service.
