SOUL WINGS CLUB

We, the undersigned, as an organization, intend to promote appreciation of music through singing and learning music theory. We intend to provide an opportunity for the campus community to learn about music and singing in a group and perform for events. We also intend to assist members in progressing in their proficiency of singing and knowledge of music. We’d like to participate in the campus community by providing performances for events. We also want to chiefly promote appreciation for music of all genres.
