

## VITA LEONIS PHILHARMONIC ORCHESTRA CLUB

We intend to enjoy playing music. First of all, we play music because we like it. Let's share the joy of playing music together! We intend to grow through practice and interaction with members. Each of us has a unique personality. We intend to learn from each other which is important to make wonderful music. We intend to inspire and encourage people through music. We are playing music for people as well as ourselves. Music has such a tremendous power to make the audience happy. We also intend to contribute to the school and the community. As one of the clubs in SUA, we aim to express our gratitude to those who support us. Moreover, we will actualize the first SUA principle "Foster Leaders of Culture in the Community."

### 2010 Spring Semester Goal(s)

1. To outreach to more musicians on the Soka campus to create a larger group for creative expression.
2. To raise a substantial amount of money with a benefit concert and donate 100% of the proceeds to Haiti relief.
3. To advocate and help support musical collaboration with all musicians on campus.
