Scuba Club

**Mission Statement:** Scuba Club will provide a fun and safe environment where students can interact with each other while learning more about ocean conservation and improving their skills in submersed diving and assist those students that need help with their skills in diving and to assist marine ecosystems and animals those are in need of conserving and protecting. Scuba club will participate in community service projects that focus on aquatic conservation. The club will also participate in recreational activities that involve aquatic environments. Finally, Scuba club will promote consciousness and awareness of the importance of marine ecosystems.

**Goals 2013-2014:** We want to continue introducing new people to the world of scuba diving as well as encouraging those that are certified to further their studies and maintain their enthusiasm for diving by planning several dive trips. We would also like to do an underwater clean up and treasure hunt in the spring semester!
