Soul Wings A Cappella

Soul Wings A Cappella Group is the first co-ed A Cappella group on campus. We sing contemporary pop and other genres of music using only our voices. Our mission is to unite students on campus through the art of singing and to work together as a team to promote the mission of Soka University, and to sound great while doing so. One of our goals for the 2013-2014 year is to become more involved in the campus community and the community outside of Soka University. We want the campus to be as enthralled with A Cappella music as we are and our long time goal is to start performing off campus and competing against other schools in A Cappella competitions. Through this, we also wish to promote the mission of Soka University and of Soul Wings to the off-campus community in Aliso Viejo and the greater Southern California region. Another one of our goals this year is to better equip our members with the knowledge and understandings of musical theory so they can sight read and match pitch with other singers with ease. Beyond these goals, we plan putting on our own Soul Wings Holiday Concert where we will sing a medley of holiday songs, Christmas carols, and contemporary seasonal music. It will be challenging but we hope to get this new school year off to a great start with new members. You can contact our club by emailing us at soulwingsclub@soka.edu for further information on our club and what we are planning to do for the coming year.
